Independent Auditors' Report

Northwest Academy
Charlevoix, Michigan

We have audited the accompanying financial statements of the governmental activities and the major fund of Northwest Academy (the "Academy"), as of and for the year ended June 30, 2006, which collectively comprise the Academy's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Academy's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

The Academy lacked support for amounts paid from and received into the Activities Fund. Accordingly, it was not practicable for us to extend our audit of such disbursements and receipts beyond the amounts recorded. Those amounts are included in the Fiduciary Fund and represent 100 percent of the assets and liabilities of the Fiduciary Fund.

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had the amounts paid from and received into the Fund been susceptible to satisfactory audit tests, the respective financial position of the governmental activities and the major fund of Northwest Academy, as of June 30, 2006, and the respective changes in financial position, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 29, 2006, on our consideration of Northwest Academy's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grants, agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Northwest Academy
Charlevoix, Michigan

The management's discussion and analysis and the budgetary comparison information are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Northwest Academy's basic financial statements. The accompanying other supplemental information is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The statement of receipts and disbursements – Fiduciary Fund has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

CERTIFIED PUBLIC ACCOUNTANTS
Petoskey, Michigan

Management's Discussion and Analysis

Overview of the Basic Financial Statements

Northwest Academy's (the "Academy's") basic financial statements include government-wide statements, fund financial statements and notes to the financial statements. This report also contains required and other supplemental information in addition to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements report information on all of the Academy's non-fiduciary funds. The government-wide statements are designed to provide readers with a broad overview of the Academy's finances, in a manner similar to a private-sector business.

The Statement of Net Assets displays all of the Academy's assets and liabilities, with the difference reported as net assets. All long-term assets and debt obligations are presented.

The Statement of Activities focuses on the gross and net cost of the various functions within the Academy (instruction, support services, etc.), which are supported by the Academy's general revenues (unrestricted state aid, etc.).

Fund Financial Statements

The fund financial statements report on the governmental funds, with an emphasis on major funds. Major funds are determined by the level of activity within the various funds. The focus of the fund financial statements is on the sources and uses of funds during the current year.

The fiduciary fund is also presented separate from the governmental funds, due to the fact that these assets do not represent assets of the Academy. These assets are not presented as part of the Government-wide financial statements.

Northwest Academy maintains one individual governmental fund. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund which is considered a major fund.

Notes to the Financial Statements

The notes provide additional information which is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-wide Financial Analysis

The table below summarizes the Academy's net assets as of June 30, 2006 and 2005:

Northwest Academy June 30, 2006 and 2005

	2006	2005
Assets		
Current and other assets	\$ 142,927	\$ 96,692
Capital assets - net of accum dep	502,893	515,835
Total assets	645,820	612,527
Liabilities		
Current liabilities	78,864	72,817
Noncurrent liabilities	444,892	410,032
Total liabilities	523,756	482,849
Net Assets		
Investment in capital assets, net of related debt	40,787	81,838
Unrestricted	81,277	47,840
Total net assets	\$ 122,064	\$ 129,678

At the end of the fiscal year, Northwest Academy is able to report positive balances in both categories of net assets. The first portion of the Academy's net assets is its investment in capital assets (land, building and equipment), less any related debt used to acquire those assets that is still outstanding. The Academy uses these capital assets in providing educational services, consequently these assets are not available for future spending.

The remaining portion of net assets, unrestricted net assets, may be used at the Academy's discretion to meet ongoing obligations.

The results for the School as a whole are reported in the Statement of Activities, which is summarized below:

Northwest Academy
Year Ended June 30, 2006 and 2005

	<u>2006</u>	<u>2005</u>
Revenue		
Program revenue:		
Grants and contributions	\$ 47,149	\$ 36,848
General revenue:		
State aid, unrestricted	454,982	402,640
Interest and investment earnings	156	161
Other	<u>5,045</u>	<u>1,878</u>
Total revenues	<u>507,332</u>	<u>441,527</u>
Function/Program Expenses		
Instruction	256,347	279,130
Support services	214,976	143,181
Interest/fees on long-term debt	30,681	31,959
Depreciation (unallocated)	<u>12,942</u>	<u>14,329</u>
Total expenses	<u>514,946</u>	<u>468,599</u>
Change in net assets	(7,614)	(27,072)
Net assets - beginning of year	<u>129,678</u>	<u>156,750</u>
Net assets - end of year	<u><u>\$ 122,064</u></u>	<u><u>\$ 129,678</u></u>

As reported above, the School recorded \$514,946 of expenses. The majority of the Academy's revenues were from unrestricted state aid (90%) and grants and contributions (9%).

The Academy would not have experienced a decrease in net assets had \$47,245 not been expensed as supporting services for carpeting and painting. Enrollment and corresponding state aid increased from the past year without a proportionate increase in expenses, other than the carpeting and painting.

Fund Financial Analysis

As of year end, the governmental fund reported a fund balance of \$81,277 which is \$33,437 more than the beginning of the year. The increase was due to increasing enrollment and a corresponding increase in state aid. Since, the proceeds from refinancing the building debt is included as a source of funds in the fund financial statements, the carpeting and painting expenditures paid from these funds did not have the effect of reducing the fund balance as it did with net assets.

General Fund Budgetary Highlights

Final budgeted revenues and expenditures were more than originally budgeted to reflect the increasing enrollment and state aid.

Final revenues and expenditures were very close to the final budgeted amounts.

Capital Assets

At June 30, 2006 the School had \$622,055 invested in capital assets. The following table summarizes the capital asset activity for the year:

	Northwest Academy Year Ended June 30, 2006			
	July 1, 2005	Additions	Disposals	June 30, 2006
Land and improvements	\$ 75,000	\$ -	\$ -	\$ 75,000
Buildings and improvements	540,122	-	-	540,122
Furniture and equipment	6,933	-	-	6,933
Total capital assets	622,055	-	-	622,055
Less accum. depreciation	106,220	12,942	-	119,162
Net capital assets	<u>\$ 515,835</u>	<u>\$ (12,942)</u>	<u>\$ -</u>	<u>\$ 502,893</u>

Debt Outstanding

At the end of the year, the Academy had \$462,106 outstanding for a building capital lease. Below is the debt activity for the year:

	Northwest Academy Year Ended June 30, 2006			
	July 1, 2005	Additions	Reductions	June 30, 2005
Building capital lease	<u>\$ 433,997</u>	<u>\$ 467,185</u>	<u>\$ 439,076</u>	<u>\$ 462,106</u>

Most of the long-term debt was refinanced during the year and additional debt proceeds of \$50,115 were obtained and used primarily for carpeting and painting of the building. The reduction is attributable to the refinancing and regular debt payments.

Economic Factors

The economic factors which are most impacting Northwest Academy with respect to this financial report are our sources of funding and student enrollment.

Northwest Academy is a public school academy. Sources of funding available to public school academies differ significantly from those sources available to traditional public schools. Public school academies are not allowed to float bonds to pay for facilities and extra needs. Approximately 95% of Northwest Academy's funds available to appropriate are generated by the State foundation grant. The grant is based on student enrollment and serves as our largest source of funding for both operations and facilities. Public school academies do receive services from the local Intermediate School District and those funds fall under the Title programs that we qualify to receive. These funds amount to less than 5% of our total income.

Over the last two years, Northwest Academy's enrollment has been impacted by large classes that graduated in 2004/2005 and 2005/2006 school years. Our enrollment increased by 30% this past year due to the major renovations and facility improvements that we completed in the summer of 2006. With the projected addition of grades K thru 4 we should see our enrollment steadily increase in the coming years. It is very difficult for public school academies to grow while both the facility and operational expenses are dependent on a single source of funding.

Financial Contact

The Academy's financial statements are designed to present users with a general overview of the Academy's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be directed towards the Business Office, Northwest Academy.

NORTHWEST ACADEMY
NOTES TO FINANCIAL STATEMENTS
June 30, 2006

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Northwest Academy (the "Academy") operates under a Board-Administrator form of government and provides education services to its residents. The accounting policies of the Academy conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant policies used by the Academy:

Reporting Entity

The accompanying financial statements have been prepared in accordance with criteria established by Governmental Accounting Standards Board Statement (GASBS) No. 14 (and amended by GASBS No. 39). GASBS 14 states the primary basis for determining whether outside agencies and organizations should be considered component units of the Academy and included in the Academy's financial statements is financial accountability. Financial accountability has been defined as follows: A primary government has substantive authority to appoint a voting majority of the component unit's board; the primary government is either able to impose its will on a component unit or there is a potential for the component unit to provide specific financial burdens on the primary government; and the component unit is fiscally dependent on the primary government. The Academy has no component units.

Basic Financial Statements – Overview

The Academy's basic financial statements include both government-wide (reporting the Academy as a whole) and fund financial statements (reporting the Academy's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for support. All of the Academy's activities are considered governmental activities.

Basic Financial Statements – Government-Wide Statements

The government-wide financial statements report information on all of the nonfiduciary activities of the primary government. These statements are reported using the economic resources measurement focus and the full accrual basis of accounting. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. The government-wide focus is more on operational efficiency, the sustainability of the Academy as an entity and the change in the Academy's net assets resulting from the current year's activities.

In the government-wide Statement of Net Assets, the governmental activities column is presented on a consolidated basis. Due to the full accrual, economic resource basis, all long-term assets and receivables, as well as long-term debt and obligations are recognized. The Academy's net assets are reported in three parts – invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. The Academy first utilizes restricted resources to finance qualifying activities.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Basic Financial Statements – Government-Wide Statements - Continued

The government-wide Statement of Activities, due to the full accrual, economic resource basis, records revenue when it is earned and expenses when a liability is incurred, regardless of the timing of related cash flows. The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers who purchase, use or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, unrestricted State Aid and other items not properly included among program revenues are reported as general revenue. Any net costs, by function, are allocated to the general revenue.

Basic Financial Statements – Fund Financial Statements

The financial transactions of the Academy are reported in individual funds in the fund financial statements. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. The emphasis in the fund financial statements is on the major funds in the governmental activities category. GASBS No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures of the governmental funds) for the determination of major funds. The Academy's major fund, as described below, is the General Fund. The Academy has no non-major funds.

The governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded in the accounting period in which they become both available and measurable. Revenues are available when received within the current period or within 60 days after year end. Expenditures are recorded in the accounting period in which the liability is incurred. The exception to this general rule is principal and interest on general obligation long-term debt, if any, is recognized when due.

The focus of the fund financial statements is upon the determination of financial position and changes in financial position (sources, uses, and balances of financial resources).

Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statements in this report, into generic fund types and broad fund categories as follows:

Governmental Funds

Governmental funds are those funds through which most school district functions typically are financed. The acquisition, use and balances of the Academy's expendable financial resources and the related current liabilities are accounted for through governmental funds.

General Fund – The General Fund is used to record the general operations of the Academy pertaining to education and those operations not provided for in other funds. The General Fund is a major fund of the Academy.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Basic Financial Statements – Fund Financial Statements - Continued

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the Academy in a trustee or agency capacity for others and therefore are not available to support Academy programs. Since these funds cannot be used to address activities or obligations of the Academy, these funds are not incorporated into the government-wide statements. Fiduciary fund statements are reported using the economic resources measurement focus and the accrual basis of accounting. The following agency fund is presented in the Statement of Fiduciary Net Assets:

Student Activities Agency Fund – The Academy presently maintains a Student Activities Agency Fund to record the transactions of student groups for school and school-related purposes. The funds are segregated and held by the Academy for the students.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, demand deposits and other accounts that have the general characteristics of demand deposits.

Investments

Investments are stated at fair market value.

Capital Assets

Capital assets, which include land, buildings, equipment and vehicles are reported in the Statement of Net Assets in the government-wide financial statements. Capital assets are defined by the Academy as assets that are purchased or acquired with an original cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date donated. Additions, improvements and other capital outlay that significantly extend the useful life of an asset, or increase its capacity or efficiency, are capitalized. Other costs incurred for repairs and maintenance is expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings and improvements	20-50 years
Furniture and other equipment	5-15 years

Comparative Data

Comparative total data for the prior year is not included in the Academy's financial statements.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

NOTE 2: BUDGETING/COMPLIANCE

The Academy is required under Public Act 621 to adopt a budget for the General Fund. An annual budget is adopted on a basis consistent with generally accepted accounting principles and State law for this fund. State law requires the Academy to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits Academies to amend their budgets during the year. All annual appropriations lapse at year end.

The presentation of budgetary information is required for the General Fund. In the required supplemental information section, the Academy's actual and budgeted expenditures for the General Fund are presented. The Academy did not have an excess of expenditures over appropriations for the General Fund.

NOTE 3: CASH AND INVESTMENTS

State statutes and the Academy's investment policy authorize the Academy to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have an office in Michigan; the Academy is allowed to invest in U.S. Treasury or Agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The Academy's deposits are in accordance with statutory authority.

Cash Deposits

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Academy's deposits may not be returned to it. At year-end, the carrying amount of the Academy's deposits for both governmental activities and fiduciary funds was \$51,913 and the bank balance was \$53,047. All of the bank balance was covered by federal depository insurance. State statutes prohibit security in the form of collateral, surety bonds or another form be taken for the deposit of public funds.

Investments

Credit Risk – As of June 30, 2006, the Academy had an investment in Wachovia open end mutual funds of \$6,586.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

NOTE 4: CAPITAL ASSETS

Capital asset activity for the Academy's governmental activities was as follows:

	Balance July 1, 2005	Additions	Disposals	Balance June 30, 2006
Assets not being depreciated:				
Land and improvements	\$ 75,000	\$ -	\$ -	\$ 75,000
Capital assets being depreciated:				
Buildings and improvements	540,122	-	-	540,122
Furniture and equipment	6,933	-	-	6,933
Subtotal	547,055	-	-	547,055
Accumulated depreciation:				
Buildings and improvements	99,287	12,942	-	112,229
Furniture and equipment	6,933	-	-	6,933
Subtotal	106,220	12,942	-	119,162
Net capital assets being depreciated	440,835	(12,942)	-	427,893
Governmental activities net capital assets	\$ 515,835	\$ (12,942)	\$ -	\$ 502,893

Governmental activities depreciation expense was charged as follows:

Unallocated	\$ 12,942
-------------	-----------

NOTE 5: SHORT-TERM DEBT – STATE AID NOTES

The Academy issues State Aid notes in advance of State Aid receipts, depositing the proceeds in the General Fund. This note is necessary because a State Aid payment is not received in September.

Short-term debt activity for the year ended June 30, 2006, excluding interest expense of \$1,051 was as follows:

	Beginning Balance	Issued	Redeemed	Ending Balance
State Aid Note	\$ 4,075	\$ 30,000	\$ 28,479	\$ 5,596

NOTES TO FINANCIAL STATEMENTS – CONTINUED

NOTE 6: LONG-TERM DEBT

The following is a summary of the Academy's governmental activities long-term debt transactions for the year ended June 30, 2006:

	Beginning Balance	Additions	Reductions	Ending Balance	Amount Due Within One Year
Leases payable:					
Building capital lease	\$ 433,997	\$ 467,185	\$ 439,076	\$ 462,106	\$ 17,214

Long-term debt payable at June 30, 2006, is comprised of the following individual instrument:

Building capital lease:

\$505,185 building capital lease in monthly installments of \$903 including interest at 6.5% through November, 2006 and \$3,510 including interest at 6.5% through August, 2010. It is expected that the outstanding amounts will be refinanced after those dates. The lease is with a related party, Northwest Academy Building Corporation. The terms are identical to those that the lessor has with its lender. \$462,106

The annual requirements to amortize all governmental bond obligations are as follows:

Year Ending June 30,	Principal	Interest	Total
2007	\$ 17,214	\$ 29,409	\$ 46,623
2008	13,631	28,483	42,114
2009	14,544	27,570	42,114
2010	15,518	26,596	42,114
2011	401,199	4,334	405,533
Total	\$ 462,106	\$ 116,392	\$ 578,498

All long-term debt will be liquidated from the General Fund. There are limitations and restrictions contained in the various agreements. The Academy is in compliance with all significant limitations and restrictions.

NOTE 7: RELATED PARTIES

In addition to Northwest Academy Building Corporation noted in the Long-Term Debt Note, the Academy is related to North West Bookkeeping who contracts with the Academy for most of its personnel. The contractor also keeps the accounting records for the Academy. Payments to North West Bookkeeping since January 1, 2006, the date the contract began, were \$177,278 through the fiscal year ended June 30, 2006.

NOTE 8: RISK MANAGEMENT

The Academy carries commercial insurance for all risks of loss. The Academy pays an annual premium for its general insurance coverage.

INTERNAL CONTROL, COMPLIANCE AND OTHER MATTERS

September 29, 2006

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Northwest Academy
Charlevoix, Michigan

We have audited the financial statements of the governmental activities and the major fund of Northwest Academy as of and for the year ended June 30, 2006, which collectively comprise Northwest Academy's basic financial statements and have issued our report thereon dated September 29, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Northwest Academy's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted a certain matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect Northwest Academy's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Documentation – The Academy has improved the support for amounts paid from and received into the Trust and Agency Fund. However, further improvements should be made.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe the reportable condition described above is a material weakness.

Superintendent and Board of Education
Northwest Academy
Charlevoix, Michigan

Compliance and other matters

As part of obtaining reasonable assurance about whether Northwest Academy's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the management and Board of Education and is not intended to be and should not be used by anyone other than these specified parties.
